- \* Ten Drip Tape Couplers
- \* One Punch for 400-B's

This kit is an all-in-one package. Perfect for vegetable, herb and fruit row crops. Assemble quickly with a screwdriver and a knife!

**BASIC PRICE FOR KIT... \$2,484.31 Part #Kit Pro**  
**OPTIONS**

- \* Upgrade to a TR-60 Filter #TR 60 Add \$100 to Basic Price
- \* Include a Mazzei Fertilizer Injector #585 Add \$100 to Basic Price
- \* Without Pump & Suction Line Subtract \$675.00 from Basic Price

**NOTE:** This system is ideal for watering from ponds or streams. The System allows you to water two acres only or four acres at two different times by zoning your crops using the Ball Valve Manifold. Please see noted Pages for more information on each item. We will assemble as much of the kit as possible for you and give you complete instructions for installing the system on your own at home.

## Professional Garden Irrigation Kit with Permanent Tubing

This tubing is made of a seamless, **one-piece construction** which prevents damage to drippers during installation and retrieval. The **Pressure Compensating** feature delivers precise water applications anywhere in the field. Another feature is the **Mechanical Barrier** that prevents root intrusion and makes **RAM** ideal for **sub-surface irrigation**. *Save \$\$ - this assembled kit is valued at over \$300.00!*
