

ALUMINUM OVERHEAD SPRINKLERS

This year change the game and optimize your growing operations with Netafim SuperNet Pressure Compensating (PC) Micro-Sprinklers. Trusted on more acres of strawberries than any other micro-sprinkler, SuperNet offers many advantages:

- Maximize yield potential and revenue with uniform, PC performance in all terrains
- Increase profits by adding a cost-effective tool to your IPM program
- Ideal flow rate reduces the risk of non-compliance with Ag Order nitrate loading requirements
- Apply for NRCS EQIP funding with confidence (highest uniformity of any sprinkler tested by the NRCS)
- Extend the life of your system with Quick-Disconnect fittings to protect the supply hose

Contact your Netafim Sales Representative or local Dealer for details.
